A new look and name for Holiday Inn Express

Special to the Democrat

Holiday Inn Express will be converted to Holiday Inn Express Hotel & Suites by April 2003. During this conversion the property is adding 20 new suites. These will be larger rooms with a jacuzzi offered in 10 of the rooms. New rooms will be located in the interior corridor and will have refrigerators and microwaves. An elevator will also be added to the building for the convenience of the guests.

Improvements have also been made to existing rooms adding new furniture, carpet, vanity granite, valance drapes and new bathroom tiles. The Express Start Breakfast area will also be renovated with more space and a new look.

The new hotel is also adding a 110 percent guarantee to guest satisfaction. If a guest is unhappy with their stay, the hotel will try to satisfy or the night stay is free.

Holiday Inn Express Hotel & Suites will continue to offer free breakfast and local calls.
